

# GENE HUSTING'S R/C CAR RACING VIDEOS

Gene's fastest drive of 159 mph occurred in this Belly Tank.

The Husting and Adams Chrysler-powered coupe held the record on all 6 drag strips in So. Calif., and never lost a race.

Gene designed the first ever long dragster, which broke the Lions Drag Strip record the very first time it ran, and never lost a race.

Gene built the longest slot car dragster at that time, and set a track record that lasted 21 years!

Gene built the first ever anglewinder-sidewinder-type road-race slot car, and then beat all of the very best slot car racers at that time.

## 1950-1967

### #1 & 2

- Drag racing on 6 drag strips, on the dry lakes, and racing at the Bonneville Salt Flats.
- My early years racing at El Mirage dry lakes.
- Building my own flat head V8s, and racing with my '32 Ford coupe. Reece Adams built was the Belly Tank.
- I designed the FIRST EVER long dragster.
- I went slot car racing. Then I designed the first ever Long Dragster, which set a record that lasted over 21 years!
- I designed the first ever anglewinder road race slot car that completely revolutionized slot car racing..

PLEASE NOTE: There is only 5 minutes of video on this DVD, which covers our dragster that set the record at Lions Drag Strip.
